ARJUNA
INTERNATIONAL

FROM VILLAGES OF INDIA TO THE WORLD

OUR PURPOSE

At Arjuna International, our purpose is to simplify global sourcing by connecting international buyers with trusted suppliers across India.

We deliver reliable sourcing, optimized logistics, and seamless export solutions that enable businesses to access high-quality products with confidence.

From small trial orders to full container shipments, we are committed to providing consistent quality, dependable service, and value-driven solutions tailored to our customers' evolving needs.

Built on trust, transparency, and long-term partnerships, we strive to create sustainable business relationships that support the growth of our customers, suppliers, and the communities we serve.

Together, we are building stronger global connections through quality, reliability, and responsible business practices.

100%

WHY SUSTAINABLE PACKAGING?

Creating a Better Future Through Responsible Choices

Plastic food packaging can remain in the environment for up to **450 years,** leaving a lasting impact on our planet.

Bagasse packaging, made from renewable sugarcane fiber, naturally composts within **60–90 days,** reducing plastic waste and supporting a cleaner, greener future.

At Arjuna International, we believe every sustainable choice matters. Together, we can replace plastic with responsible packaging that **protects both food and the environment.**

> “Together, we can replace plastic with responsible packaging that protects both food and the environment.”
